ABOUT ME

I've always been surrounded by technology since my birth, growing up I didn't see anything else but technology and I've always been curious and ambitious, now I'm well integrated in the field of technology, in 2018 I started learning at Omicron the basics of computer architecture and how they work, then HTML CSS JavaScript/JQUERY, 2021 I started learning the basics of C# and Python, at the Universum College I also completed the Full Stack Javascript course at The Odin Project.

I started the 2021 academic year with studies in computer science and engineering at Universum college as a 100% scholarship holder, where I also do practical work at the college.

I am focused on developing my skills to learn the latest technologies, I am curious about the future that I will influence in it.

DIGITAL SKILLS

HTML5/CSS/Javascript/JQUERY Basics for Python/C# Programming/

Business Plans Development

Kosovo Youth Participation Project - D&D [Sep 2022]

LANGUAGE SKILLS

Albanian

Other language(s):

English - Anglia Academy of Kosovo [B2]

Reading B2 - Writing B2 - Spoken Production B2 - Spoken Interaction B2

HOBBIES AND INTERESTS

Fotball Player

Between 2015 and 2019 I played football for the LLapi team.

Youtube

I started in 2015 and I still work in my spare time, my first gaming channel was **MegaSHQIP** in which I am very proud to have reached a good audience in the Albanian community, the second channel **SHQIPONJAT** we started different video challenges in different countries where within 3 videos we reach 5,000 subscribers, but for various reasons we paused, I hope we will come back strong.

Gaming

I fully admit that I am addicted to video games but that they are the best experience in my life, all my circle, wide and narrow, is created in video games, I have learned many things, starting from the English language, creating society, I have also created video games different with unity My favorite games are: Minecraft, Red Dead Redemption 2, CS:GO, COD Infinite Warfare etc
